EDUCATION

Mass College of Arts and Science

Master of Computer Applications.

Kumbakonam, TamilNadu

June 2024 – Present

Government Arts and Science College

Bachelor of Arts in Mathematics.

Kumbakonam, TamilNadu

June 2021 – May 2024

TECHNICAL SKILLS

Languages: C, Java, JavaScript

Frameworks: React.js, Node.js

Developer Tools: Git, VS Code, Eclipse

AI Tools: Chatgpt, Gemini

PROJECTS

1. Crop Disease Detection App

React, Node.js, Express, MongoDB, FastAPI, PyTorch, Gemini, Groq SDK

Aug. 2025 – Present

- Developed a full-stack AI web application to detect crop diseases from leaf images using deep learning
- Built a FastAPI-based ML microservice with a MobileNet pretrained model fine-tuned on rice crop disease datasets
- Implemented a Node.js + Express backend to handle image uploads, model inference, and API orchestration
- Integrated AI-generated treatment recommendations with multi-language support (Tamil, Hindi, English)
- Designed a React frontend for image upload, disease prediction display, and confidence visualization

2. Adaptive Interview Simulator

React, Node.js, Express, MongoDB, FastAPI, Gemini / LLM APIs

Oct 2025 – Present

- Built a full-stack interview simulation platform with secure authentication and role-based access
- Implemented adaptive interview sessions that dynamically fetch and evaluate questions based on user responses
- Designed RESTful APIs to manage interview sessions, questions, answers, and automated report generation
- Generated detailed interview reports with scoring, correctness analysis, and session-level insights

ACHIEVEMENTS & CERTIFICATIONS

1. National Level Technical Meet (1st Place)

Issued by Annai College of Arts & Science

Feb. 2025

- I am honored to have secured First Place in the Web Design Competition at the National Level Technical Meet - Itrix 2K25, organized by Annai College of Arts & Science, Kumbakonam.
- This competition was a great opportunity to showcase my web development skills, creativity, and problem-solving abilities.
- Competing at a national level and achieving this milestone has been an incredible learning experience, motivating me to continue exploring and growing in the field of web development.

2. Basic Computer Cum Internet Literacy Programme

Issued by Maha Vimochana Trust & Zoho Corporation

2023

- Successfully completed a two-month certified training program focused on computer fundamentals and internet literacy
- Gained practical knowledge in basic computer operations, internet usage, and digital tools
- This program strengthened my foundation in digital skills and improved my confidence in using technology effectively
